## PROFESSIONAL SUMMARY

Dedicated ReactJS Software Engineer with 10 years of experience in developing robust web applications that enhance user engagement. Adept at utilizing React.js and modern frameworks to create efficient, scalable solutions. Passionate about driving innovation and mentoring teams to achieve high-quality software delivery.

## WORK EXPERIENCE

### Reactjs Software Engineer

Seaside Innovations

📅 Jun / 2018-Ongoing

📍 Santa Monica, CA

1. Designed and implemented high-performance, scalable web applications using React.js and associated technologies.
2. Collaborated with cross-functional teams to define project requirements and deliver innovative software solutions.
3. Conducted code reviews and maintained coding standards, ensuring high-quality deliverables.
4. Utilized modern JavaScript libraries and frameworks to enhance application functionality and user experience.
5. Engaged in continuous improvement practices, analyzing application performance and user feedback.
6. Participated in Agile development processes, fostering collaboration and efficiency.
7. Developed comprehensive documentation for applications and processes to facilitate knowledge transfer.

### Reactjs Software Engineer

Summit Peak Industries

📅 Jun / 2015-Jun / 2018

📍 Denver, CO

1. Created secure and high-quality production code while maintaining algorithms that run efficiently across systems.
2. Produced architecture and design artifacts for complex applications, ensuring compliance with design constraints.
3. Gathered and analyzed large data sets to drive improvements in software applications and systems.
4. Proactively identified issues in data patterns to enhance coding practices and system architecture.
5. Contributed to software engineering communities, exploring and sharing insights on emerging technologies.
