WORK EXPERIENCE

Customer Representative

Far Out Solutions

📅 2023 - 2024

📍 Winter Park, FL

- Coordinated SSL certificate renewals for 180+ clients, achieving a **94% renewal rate and minimizing service interruptions**.
- Identified and reported recurring issues, contributing to process improvements that cut down complaint rates by 26%.
- Designed and implemented audio troubleshooting protocols for Zoom H4n Pro, shortening support call duration by 17 minutes.
- Resolved technical issues for customers within the first contact, resulting in a 32% decrease in follow-up calls.

PROJECTS

Podcast Production and Editing

Creator

📅 2023

- Conducted audio analysis in Pro Tools to correct issues before release, gaining a 96% approval rate from clients.
- Managed guest booking and scheduling for 22 episodes, ensuring a diverse range of high-profile interviewees.
- Customized EQ curves with FabFilter Pro-Q for guest speakers, **boosting positive feedback on guest segments by 48%**.
- Implemented feedback from Meyer Sound MAPP XT simulations, reducing listener complaints by 27% about sound imbalance.

Sound Design for A Short Film

Sound Designer

📅 2021

- Directed a team of 3 sound technicians, coordinating schedules and tasks to ensure timely completion of sound design elements.
- Monitored and adjusted on-set sound levels with SPL Meter, contributing to a **21% decline in re-recording sessions**.
- Optimized audio quality by removing unwanted noise and artifacts from 164 dialogue tracks using Avid Pro Tools' features.
- Integrated Propellerhead Reason's modulation tools to design dynamic sound effects, curbing manual audio adjustments during editing by 18%.

CAREER OBJECTIVE

Aspiring audio engineer intern with project experience in podcast production and innovative sound design, seeking to contribute my technical skills at Precision Sound Studios. I'm committed to using my innovative approach to improve sound quality and help the studio continue its tradition of audio excellence.
