**PROJECTS** 

Text-Based Adventure Game - Lead Developer, Semester Project, Java

February 2025

- Designed and developed a choice-driven game based on *Planet of the Apes*, implementing randomized events and branching storylines
- Coordinated version control with GitHub and collaborated with peers to ensure modular code structure

Email Administration System - Solo, Java

January 2025

- Built an email client with features for account creation, inbox management, and password security
- Applied string manipulation and regular expressions to validate email formatting

Attendance Management System - Lead Developer, Semester Project, Java

April 2024

- Developed a school-focused tool to track student attendance and grades
- Utilized Git for collaboration and managed merge conflicts during development cycles

PhoneBell - Solo, Final Project, CSV and Python

December 2023

- Created a simulated phone network handling contacts, messaging, and call logs with read, append, and write capabilities utilizing CSV
- Designed a menu driven command line interface for seamless interaction and usability

#### EXTRACURRICULARS

# Cybersecurity Club

• Member | Engaged in cybersecurity challenges, CTFs, and team-based network security discussions

## Ethnic Engineering Club

• Member | Participated in workshops, networking events, and engineering hackathons.

#### Cooking Club

• President | Led organization efforts, event planning, and community engagement on establishing fundamental culinary skills, nutrition, and safety practices.

### EXPERIENCE

#### TWoods Entertainment Venue | Food Runner, MiddleofNowhere, VT

May 2024 – August 2024

- Served guests by receiving food from kitchen and delivering it to the correct bays efficiently
- Assisted bay hosts and caddies and handled complaints and issues by customers with service

#### Grocery Store | Cashier, MiddleofNowhere, VT

April 2023 — August 2023

- Handled point-of-sale systems and managed cash transactions efficiently.
- Developed strong customer service and problem-solving skills.

## Soccer Park | Maintenance Personnel, MiddleofNowhere, VT

March 2022 – Jan 2023

- Maintained facility cleanliness by collecting trash and ensuring a safe environment for guests
- Assisted in field upkeep, equipment setup, and maintenance, ensuring smooth operations for events.

# ACADEMIC COURSEWORK

Introduction to Java	Hardware and Software Concepts	Intro to Data Analytics
Computer Science I	Management Information Systems	Macroeconomics
Object Oriented Programming II	Calculus I	Accounting I & II
